

Dr. Shankar Prinja,
Professor, DCM SPH, PGIMER

Dr. Shankar Prinja is a Professor of Health Economics at the PGI Chandigarh. His research interests include methodological and applied research on methods of costing and cost-effectiveness analysis, as well as evaluation of health financing policies. He has contributed to various important methodological guidelines of India's HTA agency. He has formerly served as the Executive Director at India's National Health Authority. At the NHA, he was responsible for designing policies for health benefit package, pricing, and quality assurance of India's national insurance scheme – *Ayushman Bharat Pradhan Mantri Jan Arogya Yojana* (AB PMJAY), as well as set up the Health Financing and Technology Assessment unit.

He has been a member of several high level technical Government of India's expert groups including the Health Ministry's Screening Committee, National Technical Advisory Group on Immunization, chairs the Vaccine Cost Effectiveness Analysis Working Group of the NTAGI, Topic Prioritization Committee of the HTAIn, and the Research Advisory Council of the Public Health Foundation of India. He also established 3 Centres of Excellence at the PGI – including the Regional Resource Hub of the HTAIn, Innovation and Learning Centre for PHC, and the Centre for Health Insurance and Financing.

He is a recipient of prestigious Prof MK Seshadri award & the Prof. BC Shrivastav Foundation Award by the Indian Council of Medical Research. He has also authored more than 280 research papers in leading national and international peer-reviewed scientific journals. He has featured in the list of the top 2% scientists globally in the field of public health research (Stanford University), as well as in the top 20 global researchers working in the field of universal health coverage (bibliometric study).
