

Dr. Unmesh Upadhyay is an experienced pediatrician with over 15 years of dedicated clinical practice and leadership in child healthcare. He currently serves as the Director and Consultant

Pediatrician at **Vismay Childcare Hospital**, where he has been instrumental in providing high-quality pediatric care and establishing protocols for immunization and preventive medicine.

A passionate advocate for child health, Dr. Upadhyay has recently been appointed as the **President of the Pediatric Association of Ahmedabad for the year 2024–25**, reflecting his active role in the medical community and commitment to advancing pediatric standards regionally.

His academic background includes an **MD in Pediatrics from NHL Medical College (2004–2007)**, and further specialization in vaccinology. He has completed the prestigious **Advanced Course of Vaccinology (ADVAC) in 2024** from the **University of Geneva**, which is globally recognized for training leaders in immunization. In addition, he has undertaken the **IPA Vaccine Trust Course – Level 1** in 2020, reinforcing his expertise in the field of vaccination.

Dr. Upadhyay is also an accomplished contributor to medical literature in the field of vaccinology. He has authored several key chapters and publications including:

1. *IAP TB of Vaccine* (2020),
2. *FAQ on Vaccines & Immunization Practices* (2021),
3. *COVID-19 Vaccines – A Comprehensive Overview* (2021), and
4. *Adult Immunization in Office Practice*, published by Jaypee (2022).

Known for his clinical excellence and scholarly contributions, Dr. Upadhyay continues to play a vital role in enhancing immunization practices and pediatric care in India. His work bridges clinical service, public health, and academic publication, making him a respected figure in both local and national pediatric health initiatives.
